

Clemens Susen new Head of Investments

Düsseldorf, 7 January 2026 – Clemens Susen has been appointed Head of Investments at aream Group SE with effect from 1 January 2026. He takes over from Christine Brockwell, who will be taking on a new role within the group. In addition to heading up the investment department, he will become managing director of the asset management company aream GmbH alongside René Kautz.

Clemens Susen joins from Qualitas Energy Deutschland GmbH in Berlin, where as Head of Investments he drove forward acquisitions in the wind sector, managed a mandate worth one billion euros and carried out transactions with institutional and private investors. Prior to this, Susen was Investment Director at aream GmbH from October 2017 to the end of 2024.

“Clemens Susen has known aream for a long time, and we are delighted to have him back on board. With his extensive expertise, we will continue to grow and develop successfully“, says Markus W. Voigt, founder and principal owner of the group. “At the same time, we would like to thank Christine Brockwell for her commitment over the past year and are confident that she will continue to provide us with groundbreaking support thanks to her extensive experience in the field of renewable energies.”

About the aream Group

aream Group, founded in 2005, is an investment and asset manager for institutional investors and industrial clients with a focus on sustainable infrastructure in the renewable energy sector. With its three divisions Fund and Asset Management, Project Development and Operation Management, aream covers the entire value chain for renewable energy investments. With a transaction volume of more than 2.5 billion euros, aream is one of the leading asset managers in this market, and its own portfolio of plants generates around 40 million euros worth of green electricity per year. Since 2008, aream has produced more than one billion kWh of green electricity. As part of the growth strategy, several solar and wind parks are to be realized or acquired in the coming years. Through its own project development alone, aream currently has a long development pipeline with great potential. Further information: www.arem.de.
