

aream brokers a power purchase agreement for a solar park in Brandenburg

Düsseldorf, 30 March 2026 – aream Group SE has signed a power purchase agreement for the Kahsel solar power plant in Brandenburg, which is being built and operated by a subsidiary of Stadtwerke Halle. “A Berlin-based energy supplier will purchase all the solar power generated by the plant over a period of ten years”, explains René Kautz, CCO of aream Group SE.

The Power Purchase Agreement (PPA) for the solar park in Brandenburg covers a capacity of 19 MWp and was finalised within just three months. “We developed innovative PPA structures and negotiated them efficiently”, says Kautz. “We are delighted to have supported such a dynamic municipal utility in this transaction.” Thomas Hollstein, Managing Director of the solar park company: “Thanks to targeted negotiations and the constructive cooperation of all parties involved, we were able to achieve an effective and strategically appropriate solution very quickly.”

The transaction marks the start of a broader collaboration between aream and the Halle-based group of companies. A second mandate is already in progress.

About aream Group SE

Founded in 2005, aream Group is a developer and asset manager focusing on sustainable infrastructure in the renewable energy sector. This includes wind and solar power, grids and storage technology. With its operations and asset management, project development and energy markets divisions, aream Group covers the entire value chain for renewable energy investments. With a transaction volume of more than €2.5 billion, aream is one of the leading asset managers in this market, generating around €40 million per year in green electricity from its own portfolio of investments. Since 2008, aream has produced more than 4 billion kWh of green electricity. As part of its growth strategy, several solar and wind farms as well as battery storage facilities are to be realised or acquired in the coming years. Thanks to its own project development within Aream Advisory GmbH, the group currently has a development pipeline in Germany with great potential. Further information: www.arem.de.
